Key Features

1. User & Authentication Service

- Users can browse the platform as guests without logging in
- Registration and login required for any interaction (booking, chat, etc.)
- Profile management system
- Optional identity verification (NID or documents)
- Verification handled by the admin panel

2. Parking Service

For Users:

- Search and browse parking locations
- View parking details:
    - Price
    - Availability
    - Security features
- Schedule bookings (date and time)
- Request booking and negotiate price/time
- OTP generation for booking confirmation
- Extend booking duration (if slot is available)
- Checkout process with review submission

For Parking Owners:

- Add and manage parking locations
- Define:
    - Total slots
    - Pricing
    - Availability (date & time)
    - Security features
- Update information dynamically
- Accept/reject booking requests
- Participate in negotiation with users

3. Booking Service

- Handles all booking-related operations
- Booking lifecycle management:
    - Pending
    - Negotiating
    - Confirmed
    - Ongoing

    - Completed
- OTP-based booking validation
- Booking extension and cancellation
- Time tracking and scheduling

4. Chat & Negotiation Service

- Real-time communication between users and parking owners
- Supports price and time negotiation
- Maintains chat history
- Includes reporting functionality for inappropriate behavior

5. Payment & Wallet Service

- Integrated wallet system for users and parking owners
- Secure payment processing after booking completion
- Automatic transfer of funds to owner wallets
- Withdrawal system for owners
- Payment tracking and auditing

6. Review & Rating Service

- Users can provide feedback after checkout
- Rating system for parking locations
- Reviews stored and displayed for future users

7. Admin Service

- User verification (NID/document approval)
- User and platform management
- Monitoring bookings and transactions
- Handling reports and disputes
- Payment auditing and automation
- Customer support management
